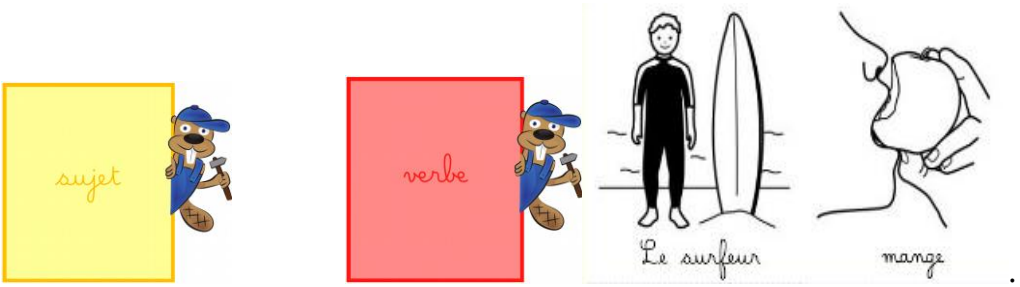
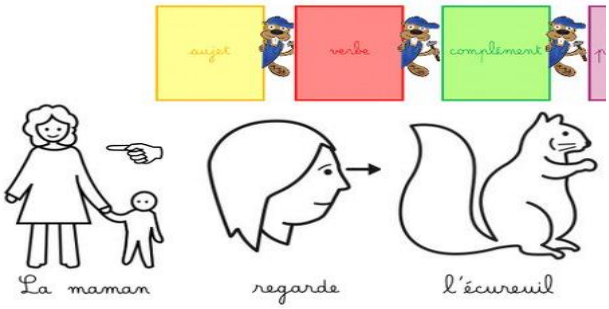
L’atelier pour produire des phrases en GS

Je vous propose un atelier de production d’écrit.
Voici un imagier créé dans l’objectif d’aider l’élève pour la construction de phrases à lire et à écrire.
A l’aide des cartes jointes votre enfant pourra construire lui-même les phrases et les réécrire sur une feuille.
J’ai choisi une police cursive pour que l’élève ait directement le modèle d’écriture sous les pictogrammes.
Les élèves pourront utiliser des « modèles » de construction pour commencer :

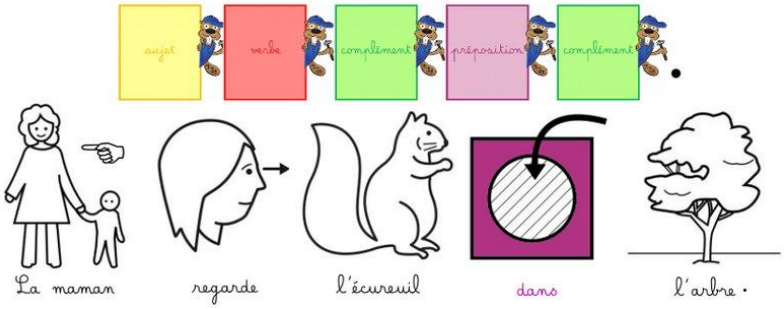
Sujet verbe 1)



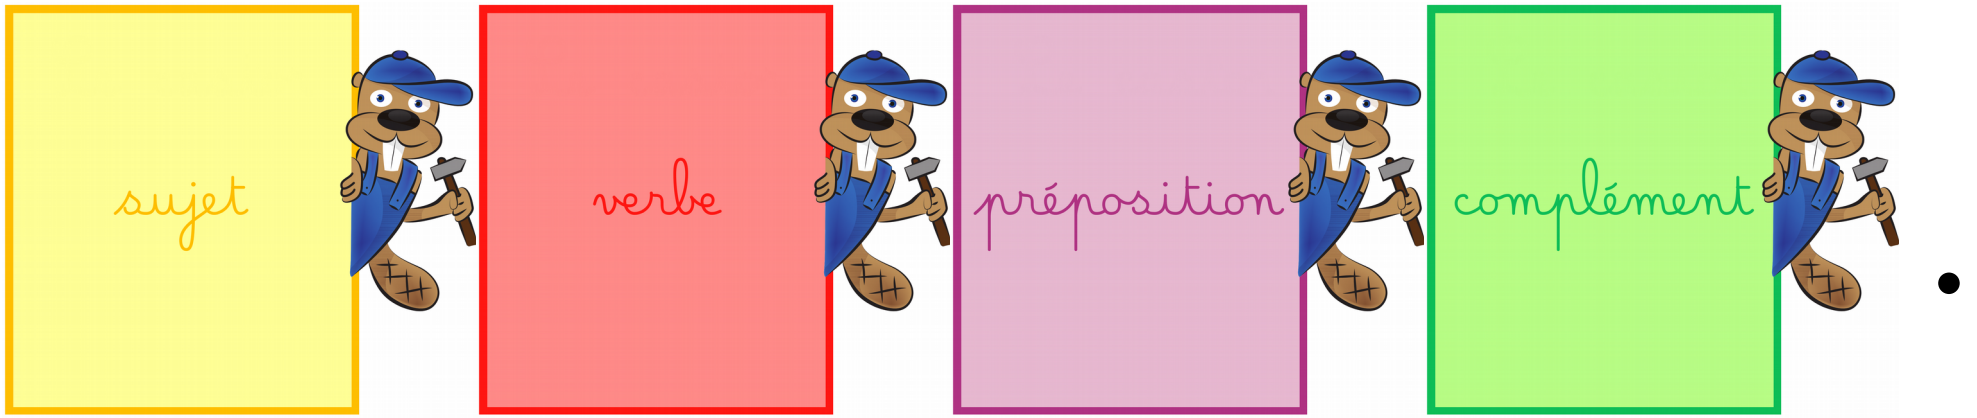
Sujet, verbe, complément 2)



Puis des formes plus complexes de phrases :



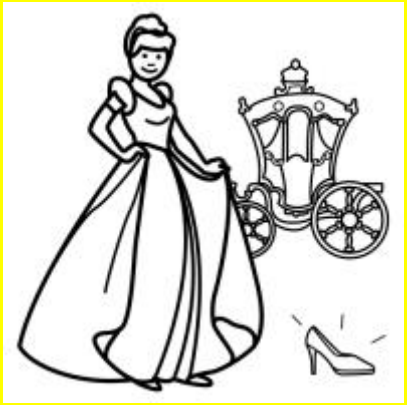
Ils pourront ensuite manipuler ce matériel en atelier autonome.
Les images permettent de produire des phrases ancrées dans le réel ou non .
Il est simplement important de respecter le code couleur puisque les sujets commencent toujours par une majuscule et les compléments se terminent par un point.



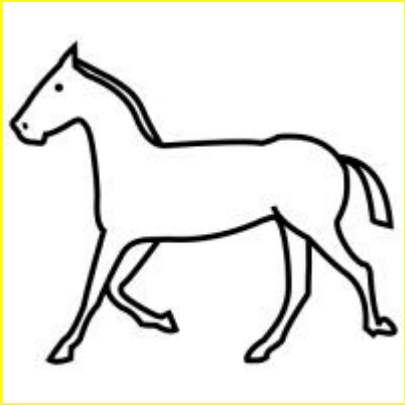
Modèle pour l'enfant. les couleurs peuvent l'aider
à positionner les mots de la phrase correctement.

PAGE "SUJETS"

Batman

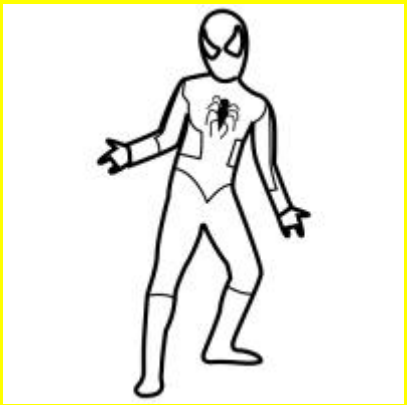


Cendrillon

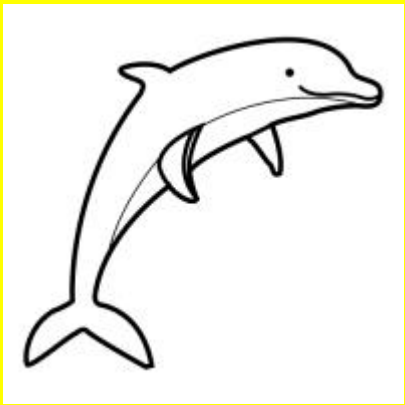


Le cheval

Superman



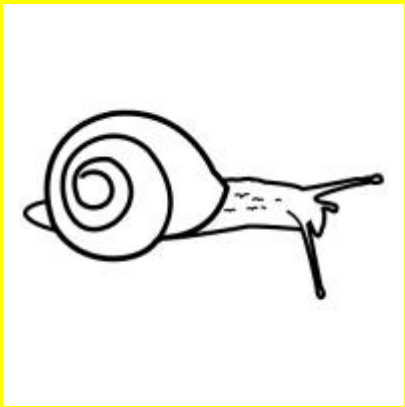
Spiderman



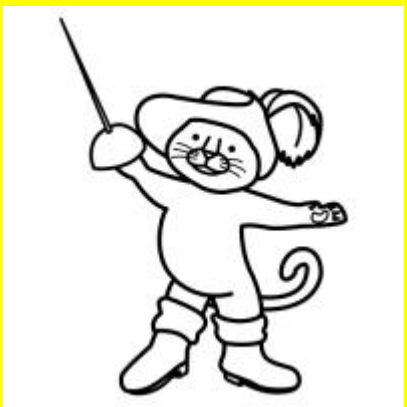
Le dauphin

Le chanteur

La chanteuse



L'escargot



Le chat botté

Le chaperon rouge
